

# RICE CAKE MACHINE – mod. XP-CAKE3 HYDRO

- COMPACT SIZE 680 x 1200 h. 1950
- NEW SOLUTION, HIGH TECHNOLOGY
- SUITABLE FOR ALL TYPES OF CEREAL
- HIGH PERFORMANCE PRODUCTION
- INDEPENDENT HEATING SYSTEM
- HIGH CRUSHING POWER
- TOTALLY AUTOMATIC
- CUSTOM MACHINE
- EASY TO USE
- EASY TO CLEAN

*italian design*

*Cakes Machine mod. XP CAKE 3 HYDRO is constructed with the aim to transform the raw materials of cereals a food with geometric shape triangular, round, square, rectangular.*

*-Types of cereals: wheat, rice, barley, corn, and various mixtures of cereals.*

## **DESCRIPTION PROCESS**

*The cereal is transferred from the hopper to the mold ,through a horizontal system power pneumatic control. The dosage is volumetric.*

*The mold closing, shatters grains which, by cooking for a short time, favors the expansion of the cereal thus forming into cakes. The cakes are ejected, discharged on a conveyor and channeled to the packaging department.*

## AVAILABLE MODELS

### CAKE MACHINE:

- OPERATOR VERSION
- VERSION INTEGRATED TO PACKAGING LINE

- NEW ELECTRONIC BOARD CONTROL WEINTEK ,DISPLAY 7", TFT-LCD

## MOULDS CONFIGURATION
